

SERIES 5050 NO WELD SQUARE CORNER CAMPER DOOR

Frame Assembly

- Mechanically fastened outer frame creates a strong, sturdy assembly
- Extruded hinges, with stainless steel bushings and full-length pin, provide longer service life and sturdy core to frame connection
- Hinge system complies with DOT FMVSS 206 and CMVSS 206
- Built-in drip cap requires less labor at installation and sloped threshold provides better drainage
- Available in black, mill, silver or white finish

Core Assembly

- Smooth and embossed exterior skins available in a variety of popular colors
- Damage resistant fiberglass exterior and interior surfaces. Optional aluminum skin available
- Strong extruded aluminum core surround protects the core edge from damage
- Precambered lock side stile and adjustable strike plate ensure a positive seal
- Optional flush and safety locks are available
- Key alike system available for locks (one key fits all locks)

Screen Door Assembly

- Extruded aluminum screen door frame
- Screen door lever latch secures firmly to the primary door and frame
- Optional kick panel available
- Optional cross bars

ADVANCED DOOR SOLUTIONS FOR OVER 40 YEARS

Available Window Styles

2.) Radius Corner
4553 Window

3.) Radius Corner
4552 Feed Door

4.) Radius Corner
20" x 30" Window

SERIES 5050 NO WELD SQUARE CORNER CAMPER DOOR

1. Door is precambered at manufacture for consistency.
2. Door does not require adjustment of camber at installation, saving time and money.
3. Door will "spring" to fit flat or convex walls.
4. Camber enhances weather tight seal.
